JANE CHAVEZ

Front-End Developer

Cypress, TX | 979-703-3827 | jpdm015@gmail.com
LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

M.S. Software Engineering graduate with a strong focus on front-end development and user interface design. Experienced in building responsive, accessible web applications using HTML, CSS, JavaScript, and Bootstrap, with working knowledge of modern UI/UX principles. Proven ability to translate design concepts into functional, user-friendly interfaces and deploy production-ready projects using Git and GitHub Pages. Background in healthcare brings strong problem-solving, communication, and cross-functional collaboration skills. Seeking an entry-level Front-End Developer role.

TECHNICAL SKILLS

Frontend Development: HTML5, CSS3, JavaScript, Bootstrap 5

DOM Manipulation, Event Handling, Responsive Design

UI/UX & Design: Figma (Wireframing, Prototyping), User-Centered Design, Visual Hierarchy

Version Control & Deployment: Git, GitHub, GitHub Pages

Data & Analytics: R, Weka, Exploratory Data Analysis (EDA), Data Cleaning

PROFESSIONAL EXPERIENCE

Volunteer Web UX Designer

Sierra Overlook Animal Rescue | Feb 2026 – Present | Remote

- Conducted usability evaluation of existing Wix website to identify navigation and user flow improvements
- Redesigned page layouts to improve visual hierarchy and user engagement
- Implemented front-end design improvements within Wix, enhancing layout structure and mobile responsiveness

TECHNICAL PROJECTS

CaloriEat Web Application (UHCL Capstone Project) | HTML, CSS, JavaScript, Node.js, Chart.js

- Developed a full-stack calorie tracking application with authentication, dashboards, meal logging, goal tracking, and progress visualization
- Built responsive front-end components with a focus on usability, layout structure, and maintainable code
- Integrated dynamic data visualization using Chart.js to enhance user interaction and feedback

HTML Portfolio Website (GitHub) | HTML, CSS, Bootstrap 5, Figma

- Designed and developed a responsive portfolio website showcasing front-end and UX projects
- Implemented reusable UI components and structured layouts using Bootstrap
- Added interactive features including scroll-based animations and hover effects using JavaScript
- Deployed and maintained the site using GitHub Pages

Predicting AI's Impact on Careers (UHCL SWEN 5139 Group Project) | R, Weka

- Conducted exploratory data analysis (EDA) to evaluate trends in AI-related job growth and displacement
- Applied classification modeling techniques in Weka to identify workforce patterns
- Performed data cleaning and feature engineering to improve analysis accuracy

PREVIOUS HEALTHCARE EXPERIENCE

Staff Nurse – IMU

HCA Houston Healthcare Cypress | July 2023 – Oct 2023

- Managed high-acuity patient care in a fast-paced hospital environment
- Collaborated with multidisciplinary teams to ensure safe and efficient patient outcomes

Staff Nurse/Charge Nurse/Float Nurse

CHI St. Joseph Hospital | Jan 2019 – Apr 2021

- Oversaw patient care operations and coordinated across multiple hospital units
- Improved workflow efficiency and supported clinical team operations

House Supervisor & Staff Nurse

Rock Prairie Behavioral Health | May 2016 – Jan 2019

- Supervised nursing staff and ensured adherence to operational standards
- Coordinated patient care workflows and staff training

EDUCATION

Master of Science in Software Engineering

University of Houston–Clear Lake | **GPA: 3.90**

Relevant Coursework: Software Engineering, Agile, Data Science

Bachelor of Science in Nursing

The University of Texas at Arlington | **GPA: 4.00**
